WORLD SERIES 2020
7 OCTOBER - 12 NOVEMBER/2020 ONLINE

Champion Quotes

- **Digital Twin Consortium – Dan Isaacs, Vice President / Technical Director**
 - “The DTC are delighted to be a champion of the DBM. The changing world across many industries is rapidly adopting Digital Twins with significant business benefits, economic impacts and cost reduction outcomes.
 - Industry agnostic business lifecycle management, digital partnering, including frictionless trading capabilities, offering design, secure in life management and monetization – with everything including configurable customizations – are important inputs to the evolution of digital twin technology.
 - TM Forum assets, such as Frameworkx, the Shared Information Data Model (SID) and APIs, as evidenced through the Digital Business Marketplace offer compelling opportunities for our Consortium members.”
- **Agile Fractal Grid – John Reynolds, CEO**
 - “The DBM 3.0 Catalyst is a very exciting program with the depth of the participants and champion's that are now participating. We are using many of the efforts underway as the initial stages for the production operations for implementation of mass customized fractal microgrids.”
- **Maxbyte – Ramshankar CS, CEO**
 - “The Digital Business Marketplace catalyst has provided Maxbyte the opportunity to validate the promise of zero touch frictionless partnering... so that we can transform the way that Maxbyte services its customers.
 - DBM capabilities with zero touch solutions as a service would help Maxbyte's current industry 4.0 self service platform development.
 - This enables our solutions to be securely deployed, in-life managed via digital twins from cloud to the edge... leveraging our industry 4.0 bytefactory platform via TMF API's, delivering Factory as a Service, M2M transactions, Robot healing services - leveraging capabilities such as AI, DLT, cyber agents, with granular monetization for all our partners using the DBM digital platform.”
